

COINAGE

Vending Machine Alarm

This alarm is suitable for many types of cabinet. It is triggered by opening the door or by tilting or knocking the machine.

Once triggered the alarm will sound after a delay of between 3 and 20 seconds (adjusted by the top potentiometer). The alarm will sound for 1 to 20 minutes (adjusted by the bottom potentiometer), and will then reset itself.

The alarm is deactivated on entry by the key, and set by removing the key before shutting the door.

Specifications

DIMENSIONS Height 140mm, Width 60mm,
 Depth 26mm, Weight 500g

POWER: 9V PP3 Battery > 1 year

MOUNTINGS 2 Holes 77mm pitch
